Collaborate

As a student, Scoir will connect you to YouScience, where you'll be matched with career paths and majors through a series of brain games.

Stay organized by keeping track of your volunteer and working hours, activities, achievements, and more. When you need it, creating a resume is one button-click away!

Our college search network is designed to help you find your best-fit college.

Make meaningful connections and control your conversations with colleges. Once you follow a college, you can receive outreaches from that college based on your interests, academic focus, class year, and more.

A simplified way to collaborate with your high school about what colleges you're applying to, what application-related documents need to be sent, and when to send them.

Counselor Side

Gauge student progress by class year, see outcome data (even for alumni), track performance, and keep events and deadlines top of mind.

See what your students are up to, review college acceptance statistics based on your school, or create your own report.

Scoir connects your students with **YouScience**, a delightful aptitude assessment. Use the results of the test to inform your conversations with students about potential career paths.

Use our electronic document delivery system that combines data and intelligence to save you time, reduce stress, and improve accuracy.

Send students, families, and teachers direct messages or use advanced filters to create any segment you can imagine.
